

VSF601B

Sofa bed made with wood frame covered with polyurethane foam and polyester fibre. Double seat cushions made in D-35 CMHR foam and polyester fibre. Back cushions made with feather and fibre. Removable arms for an easy installation. Wood legs available in different finishes. Optional back storage for cushions and blankets.

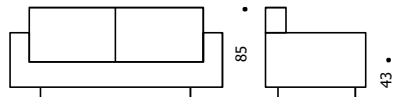

Bed mechanisms description:

Features: Mechanism allows to open and close the sofa bed with one movement only without removing seat and back cushions. Spring mattress 200 cm length and 14 cm thickness. Other kinds of mattress available under request.

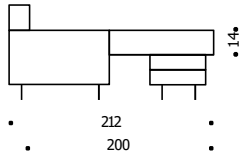

Frame: Constructed in high resistance cold rolled steel tube, finished in epoxy resin, electro statically deposited, oven backed. Frame complete with bayonet fixings for easy mounting of arms and back. Opening: Stand in front of the mechanism and pull the upper part of the back, then pull and the system is opened with rotation of the cushions under the bed.
